

FEATURES

- Extremely versatile
- Designed for bearing large loads and high speeds.

MAIN BENEFITS:

- **Multipurpose machines:** suitable for any kind of job.
- **Customized accessories:** in conjunction with the great versatility of the Unimog, there is also a full range of equipment that could be coupled with the railway part, guaranteeing to the customer a machine fully equipped with a "turnkey" solution (samples of available equipment are: crane, flatbed, chemical weeding, etc...).

RAIL FITTINGS UNIMOG
